# THREE PROMINENT MEN IN FIGHT FOR FEDERAL PENSIONS

### Former Senator Dick and Commissioner Rudolph Take Stand.

(Continued from First Page.) tions." In these words Dr. Llewellyn Jordan, chief of the Bonding Division, United States Treasury, today reaffirmed his position that something must be done for the betterment of condi-

tions under the civil service. Dr. Jordan's declaration follows announcement made a few days ago by Postmaster General Hitchcock that he is to use his best endeavors to procure for the superannuated clerks of the United States postal service pensions sufficient to care for them in their declining years.

For fifteen years, Dr. Jordan has given a close study to the matter of increased salaries and pensions for Government employes, and is one of the recognized leaders among Washington Government clerks in their continual fight for better conditions. Undismayed by past neglectful treatment of the clerks' needs by Congress, Dr. Jordan stands ready, he said this morning, to again take up the gauntlet as soon as Congress con-

Until the 250,000 Federal employes of every section of the country get together on this question, and present a united front with an increased salary proposition. with an increased salary proposition in view, Dr. Jordan believes that Con-gress will not heed their cry.

"If the salaries of the Government employes corresponded with the charfacter and amount of work required of

ommend in his report to Congress that the superannuated postal employes be pensioned, he said he had no intention of doing that because he considered it

a Federal matter.
"I think," said the Commissioner,
"that the Postmaster General is right in advocating a pension system for the postal employes, but of course I am interested primarily in getting adequate pensions for the District employes—the firemen and policemen.

As it is now, the only source of revenue we have for pensioning these men is that provided by dog taxes and Police Court fines. The pensions are always small, and this year we will not have enough money to will not have enough money to carry them through October. After that material reductions will have to be made. The dog taxes are collected in the early spring, so from now on we will have only the Police Court receipts to run on, and they remain about the same.
"Congress should consider, first, the

polsoning of men who engage in hazard-ous occupations. Firemen and police-men are constantly risking their lives. They are often incapacitated for work while young in years, and under such while young in years, and under such conditions should be provided for. Men who are in the departments are not often injured while serving in the line of duty, therefore their pensions would be principally for disability incident to ald age.

old age.
"When I was in business for myself we adopted a pension system. Most of the big employers of the country are doing likewise, and what is proper for the big private employer is proper for the largest of all employers—the Govern-

ment.
"To my mind," continued the Commissioner, "a man who feels that he is sure to be taken care of when he becomes enfeebled will stay by his employer and work better than he would if he believed that as soon as he began to lose his usefulness he would be cut off from all chance of getting a living."

"It has been my experience," said Dr. Davidson. "That school lunch rooms' generally pay dividends, but at the expense of the pupils who might have got more for their money. I do not want to run this counter as a money making affair, but with the purpose of furnishing pupils with wholesome, nourishing food as cheaply as possible."

#### Fiance Gives His Blood But Fails to Save Girl

FREDERICK, Md., Sept. 16.—The death in a Philadelphia hospital last FREDERICK, Md., Sept. 16.—The death in a Philadelphia hospital last Wednesday of Mary Gerlach, daughter of Christopher Gerlach, of this city, was the sad ending of a romance which caused Charles Jesse Evans, of Philadelphia, the fiance of Miss Gerlach, to give his blood to her in a vain attempt by the surgeons to save her life.

Miss Gerlach had been residing in Philadelphia. For some time she and Mr. Evans had been engaged. About a month ago she went to Atlantic City on a vacation. There she contracted a severe illness. She was taken to the Philadelphia hospital, where Mr. Evans visited her daily. A week ago the physicians became convinced that in transfusion lay the only hope of restor-

"Eighty-eight Americans want to marry me and I don't want to get married," said Mrs. Lucius Hopkins Smith, the young and pretty widow of a rich cotton broker, of New York and Paris:
"I have kept a record of proposals and have received eight since I reached Los Angeles. The other eighty I received in New York." Mrs. Smith's husband died five months

Mathematics—H. E. Thomas and W. ago. She is a sister of the wife of GenEller von Kosatsky, of Austria.
Her brother-in-law, Sidney A. Smith, of New York, is contesting her claim to the estate of her husband. By the will Mrs. Smith received one-third of the estate and her adopted daughter twothirds. The daughter's share is the subject of contest by Sidney A. Smith.

### CROSS, SICK, FEVERISH CHILDREN NEED GENTLE, THOROUGH CASCARETS

Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver, and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well, and need a gentle, though thorough, physic-but don't try to force a nauseating dose of oil into the little one's already sick stomach-it is cruel, needless, and old-fashioned.

Any child will gladly take Cascarets, which act gently-never gripe or produce the slightest uneasiness-though it cleanses the little one's system, sweetens the stomach, and puts the liver and bowels in a pure, healthy condition.
